The ESHG joins the American Society of Human Genetics in denouncing the misuse of genetics in support of racial theories. Not only is this dangerous and immoral, but it also has no base in science.

European Society of Human Genetics: News

Modern genetics started with Mendel's studies of the nature of inheritance in plants. In his paper "Versuche über Pflanzenhybriden" ("Experiments on Plant Hybridization"), presented in 1865 to the Naturforschender Verein (Society for Research in Nature) in Brno, Mendel traced the inheritance patterns of certain traits in pea plants and described them mathematically.

Genetics - Wikipedia

The American Society of Human Genetics (ASHG), founded in 1948, is the primary professional membership organization for human genetics specialists worldwide.

About the ASHG - The American Society of Human Genetics

The Genetics Education Center, for educators interested in human genetics and the human genome project. Resources on the human genome project, curricula, lesson plans, books, videotapes, and other resources. Information on mentors, genetic conditions, genetic careers, and glossaries. Site maintained by Medical Genetics, University of Kansas Medical Center

Genetics Education Center - kumc.edu

Population genetics is a subfield of genetics that deals with genetic differences within and between populations, and is a part of evolutionary biology. Studies in this branch of biology examine such phenomena as adaptation, speciation, and population structure.. Population genetics was a vital ingredient in the emergence of the modern evolutionary synthesis.

Population genetics - Wikipedia

Belgian Society Human Genetics. Permanent Education Course in Human Genetics This postgraduate course intends to fulfil the need of a growing number of professions (from industry as well as from health care, for diagnostic or for research purposes) in which theoretical bases of all aspects of human genetics are useful or required.

Katherine Chiappinelli, PhD, assistant professor of microbiology, immunology, and tropical medicine, spoke to The Scientist about the connection between human endogenous retroviruses (HERVs) and diseases like ALS and multiple sclerosis.

George Washington University - The School of Medicine

The question of our own human creation has become increasingly contentious among evangelical theologians and scientists. Some theologians insist that the historicity of Adam and Eve is not theologically important, and evolutionary scientists continue to maintain that human evolution does not support the descent of modern humans from a single couple.
