

improving the investment decision pdf

Investment or investing means that an asset is bought, or that money is put into a bank to get a future interest from it. Investment is total amount of money spent by a shareholder in buying shares of a company. In economic management sciences, investments means longer-term savings. It is a term used in business management, finance and economics, related to saving or deferring consumption.

Figure 3 shows a decision tree with real options. Table 2 shows that the net present value of the investment with real options is \$126.54 million. However, note that value of option is \$118.59 million, since the bank needs to take into consideration the NPV of the investment without real options (i.e., \$126.54 millionâ€“\$7.95 million).
