

information processing and management pdf

Information management (IM) concerns a cycle of organizational activity: the acquisition of information from one or more sources, the custodianship and the distribution of that information to those who need it, and its ultimate disposition through archiving or deletion.. This cycle of organisational involvement with information involves a variety of stakeholders, including those who are ...

Information management - Wikipedia

Information lifecycle management (ILM) refers to strategies for administering storage systems on computing devices.. ILM is the practice of applying certain policies to effective information management. This practice had its basis in the management of information in paper or other physical forms (microfilm, negatives, photographs, audio or video recordings and other assets).
