PE Central's lesson plans for physical education. Awesome game! After playing with a few classes, I added in other rule variants including a "car crash" (students "hit the floor" under control then come back up to start their engines"), as well as donuts, where the s.s have to do 3 circles around a cone using one side of the blade before they continue moving in their own paths again.

A physical data model (or database design) is a representation of a data design as implemented, or intended to be implemented, in a database management system. In the lifecycle of a project it typically derives from a logical data model, though it may be reverse-engineered from a given database implementation. A complete physical data model will include all the database artifacts required to ...
