IBM PowerVM Virtualization Introduction and Configuration

The metric system was developed during the French Revolution to replace the various measures previously used in France. The metre (sometimes spelled "meter" in American English) is the unit of length in the metric system and was originally based on the dimensions of the earth, as far as it could be measured at the time. The litre (also spelled "liter"), is the unit of volume and was defined as ...

Introduction to the metric system - Wikipedia

EMI replaced its Incident Command System (ICS) curricula with courses that meet the requirements specified in the National Incident Management System (NIMS). EMI developed the new courses collaboratively with the National Wildfire Coordinating Group (NWCG), the United States Fire Administration and the United States Department of Agriculture.

The Advanced Access Content System (AACCS) is a standard for content distribution and digital rights management, intended to restrict access to and copying of the post-DVD generation of optical discs. The specification was publicly released in April 2005 and the standard has been adopted as the access restriction scheme for HD DVD and Blu-ray Disc (BD). It is developed by AACCS Licensing ...
