

journalism for the 21st pdf

Journalism refers to the production and distribution of reports on recent events. The word journalism applies to the occupation, as well as citizen journalists using methods of gathering information and using literary techniques. Journalistic media include print, television, radio, Internet, and, in the past, newsreels. Concepts of the appropriate role for journalism vary between countries.

The report concludes that the 20 percent who had some journalism involvement during high school scored higher than the other 80 percent. According to Dvorak, this shows "conclusively that high school journalism experience translates into better college performance in several key areas, such as the ability to express oneself clearly and reason incisively."

AASA | American Association of School Administrators

Digital journalism also known as online journalism is a contemporary form of journalism where editorial content is distributed via the Internet as opposed to publishing via print or broadcast. What constitutes 'digital journalism' is debated by scholars. However the primary product of journalism, which is news and features on current affairs, is presented solely or in combination as text, audio ...

Digital journalism - Wikipedia

Journalism in the 21st century involves finding, collecting, analyzing and visualizing data for stories. The Journalism School offers foundational courses in data-driven journalism as well as a three-semester M.S. in Data Journalism degree for students interested in advanced skills.

Data | School of Journalism

Finally, and perhaps most consequentially, 2018 was the year that tech companies lost the benefit of the doubt from governments. This was a result of a growing body of investigations, academic research and enterprise reporting detailing the ways in which social platforms have been used to undermine democracy.
